- Distinguish the type, range and level of risk within different areas of a premises, in relation to its construction layout and use and advise accordingly.
- Determine the validity of the current fire risk assessment to identify risks which are not adequately controlled.
- Review fire protection systems in high-risk premises and environments.
- Evaluate information that may influence the ultimate selection of fire protection systems. Be able to specify solutions to minimise risks from fire in high-risk premises and environments.
- Ensure measures are in place to protect people from fire in simple and high-risk premises and their environments.
- There is a need to make immediate decisions with regard to implementing Business Safety solutions with partner agencies.
- Ability to represent the service at key partnership meetings such as Event Safety Advisory Group, Safety
  Advisory Group, Building Control, licensing and provide decisions to commit resources within the scope of
  their responsibility.
- Recognise when to request further assistance and guidance from line manager.
- Understands and prioritises community risk in both public and business setting.

#### Contacts and Relationships

- Daily contact with other members of the section, employees, line-managers and senior officers to consult, provide advice and exchange information on fire safety matters.
- Daily contact with individuals responsible for fire safety in those premises to which the Regulatory Reform (Fire Safety) Order 2005 applies, members of the public, local authority representatives, Building Control Bodies, other regulatory agencies to consult, provide advice and exchange information on fire safety legislation and enforcement matters.
- Be able to develop effective working relationships with operational crews, and internal and external stakeholders.

#### Responsibility for Resources

- Shared responsibility for a range of inspection equipment.
- Mobile telephones, computer hard / software and cameras.
- Joint responsibility for the security of sensitive information including personal information about premises and members of the public.
- Shared responsibility for the maintenance and upkeep of Public Safety vehicles.

## **Work Environment**

#### Work Demands

- The work is varied, and the programme of tasks can be subject to disruption in response to urgent
  enquiries, complaints, visits, inspections and investigations. This may necessitate flexibility of working
  hours to meet Service needs.
- There will be a need to be constantly aware that in many circumstances there may be risk associated with carrying out duties such as inspections of premises, investigations of possible breaches of fire safety regulations and enforcement.
- There will be a need to prioritise the workload which will be subject to regular changes due to competing demands and often include tight deadlines.
- There may be times where evening or weekend working is required.

## **Physical Demands**

 The physical demands include walking, sitting, standing, driving, climbing, occasional access to confined spaces, lifting and handling and regular use of IT equipment, including laptops, display screens and keyboard.

#### **Working Conditions**

- The post holder can be regularly involved with working alone when carrying out inspections and other activities outdoors and in all weathers. Some of the work will be performed in an office environment.
- Work may involve attending meetings, delivering presentations and conducting visits some of which may constitute lone working.
- The post holder may, on occasions be required to drive for long periods.
- Office location may vary according to the duties undertaken.

## Work Context

- The job involves contact with a wide range of agencies and members of the community. The post holder may, on occasions be exposed to aggressive or challenging behaviour.
- There is a need to visit a wide range of premises and remote locations where various hazards and risks
  may be present. There may be for example dust, heat, noise, chemicals, confined spaces etc., Inspectors
  must ensure the safety of themselves, their teams and others and ensure suitable and safe measures are
  implemented and maintained.
- Mobility throughout the Service area without prior notice is essential.

## **Expected Behaviours**

- Respect and welcome stakeholder and co-worker diversity.
- Treat all people fairly and in an ethical manner.
- Remain calm and controlled in challenging situations.
- Commit to organisational principles in all work practices.
- Maintain confidentiality at all times.
- Commit to continuous professional development to support the risk reduction strategy.

Continue to continuous professional development to support the risk reduction strategy.
